

Mod Boxes are the same high-quality buildings that Enviro Buildings has produced since 1988. By standardizing panel sizes, we can deliver a Mod Box to your location in significantly less time than a custom Enviro Building.

- ✓ Outdoor Offices
- ✓ Clean Rooms
- ✓ In-Plant Offices
- ✓ Guard Houses

### TEMPERATURE APPLICATIONS

Enviro Buildings® outdoor buildings are constructed with 4" high-density foam insulation to provide the best insulation and durability. Because of the insulation's high R-value, our buildings can be designed to maintain ambient temperature from -20 to 120 degrees Fahrenheit.

### WASHDOWN APPLICATIONS

Our panels offer both convenience and safety. You can clean them using a mild detergent and a power washer for hassle-free maintenance. Our panels are food safe, guaranteeing the highest standards of hygiene and suitability for use in food-related environments.

### MANUFACTURED IN THE USA

All Enviro Buildings' modular panels are manufactured in the United States utilizing the most efficient insulation, high-quality parts, and excellent craftsmanship. Located in the heart of the Midwest, Enviro Buildings' manufacturing facility is optimally located to ship nationwide.

### SERVICE COMMITMENT

Our goal is to develop lasting relationships with our customers. We strive to provide the best in sales and service, from quotation to product delivery, with an emphasis on meeting our customers' needs better than anyone else. To help ensure our customers complete satisfaction, we have highly trained sales representatives and customer service representatives on staff available to assist your needs.
